

## Managing Holidays in BEACON

### Positive Time Employees on schedules other than 5x8

The key to entering holidays in the BEACON system is whether the day is a scheduled work day for the employee. The employee may reflect holiday leave up to eight hours on the holiday itself, or another day if approved. Each holiday entitlement is 8 hours. Positive Time employees must record all of their time, including work time and leave time. Negative Time employees are **not** required to make an entry on a holiday **UNLESS** he or she worked on the holiday. On a state holiday a Positive Time employee must take one of the following actions:

1. Record Time Worked (9500)
2. Record Holiday Leave (9300) on that day (if it is a scheduled work day)
3. Record Holiday Leave (9300) on some other scheduled work day

When hours of Time Worked (9500) are reported on a holiday that falls on a scheduled workday, the number of hours of Holiday Leave (9300) reported that day should be reduced by an equal amount, up to 8 hours. Time Worked reported on a holiday results in an equal number of hours of Holiday Leave, up to 8, being moved from the Holiday Leave quota to the Holiday Comp Time quota. Please review the Time Entry overview guide at [www.beacon.nc.gov/resources/communications.html](http://www.beacon.nc.gov/resources/communications.html) to gain a better understanding of absence and attendance type codes.

Below are some examples of how employees with flex schedules would enter Holiday Leave (9300) and Time Worked (9500) during a week in which a state holiday occurs.

#### 4 x 9 + 4 Employees with a Monday Holiday

Option 1: Take Holiday Leave on the Holiday (Monday) and then work an extra hour somewhere in the week.

## 4 x 9 +4 Employees with a Friday Holiday

Some agencies may allow employees to work 8 hour days in a week with a holiday. The timesheet should reflect 8 hours of work and an hour of Holiday Leave on each of the 9 hour days, and then 4 hours of Holiday Leave on Friday.

The employee cannot enter a full 8 hours of Holiday Leave on Friday. The leave entry on that day is limited to the hours the employee was scheduled to work.

## 4 x 10 Employees with a Friday Holiday

Some agencies may allow employees to work 8 hour days in a week with a holiday. The timesheet should reflect that the employee used 2 hours of Holiday Leave for each day:

The employee does not have the option of recording 8 hours of Holiday Leave on Friday because Friday is not a scheduled work day. The employee did get the benefit of the holiday, 2 hours per day.
